Career Objective

As a full-stack developer with expertise in the React and Node.js ecosystems, I aspire to work in a dynamic technology environment to further enhance my system performance optimization skills, expand my software design knowledge, and advance to a Senior Full-stack Developer role within the next three years.

Education

INFORMATION TECHNOLOGY

09/2021 - Present

NGUYEN TAT THANH UNIVERSITY | NGUYEN TAT THANH INSTITUTE OF INTERNATIONAL EDUCATION (NIIE)

BACHELOR OF SOFTWARE ENGINEERING (EXPECTED GRADUATION: 06/2026)
Currently
(4th year student) GPA: 2.89/4 (Current)

Experience

NIIE | NEXUS E-COMMERCE WEBSITE DEVELOPMENT PROJECT

6/10/2025 - 12/1/2026

Project Name: Nexus-Ecom: AI-Integrated E-commerce & Service Platform

Technology: ReactJS, Tailwind CSS, Node.js, Express, MongoDB, Socket.io, Google AI (Gemini), Docker.

Description: Nexus-Ecom is a high-performance e-commerce and service management platform built on the MERN stack. The system integrates an AI Hub using Gemini to provide intelligent customer support and personalized shopping experiences. It features a comprehensive ecosystem that includes product commerce, real-time expert consultations, and maintenance request tracking.

Designed for scalability, the project utilizes Docker for containerization and provides a seamless, interactive UI/UX with real-time data synchronization.

Functions in charge: AI Chatbot & Intelligent Hub, Real-time Expert Consultation, Product & Order Management, Maintenance & Repair Tracking, Multi-role Authentication (RBAC), Data Analytics Dashboard.

Live Demo: nexus-ecom-git-main-duyn3630s-projects.vercel.app

NIIE | NeoBoard Project 03/2026 – Present

Project name: NeoBoard (Educational Asset Management System)

Technology: React (Vite), TailwindCSS, ASP.NET Core, MySQL, SignalR, JWT.

Description: NeoBoard is an automated asset management platform designed for educational environments to streamline equipment tracking and maintenance. The system features a QR-based self-service for students to borrow and return devices, alongside predictive health-tracking algorithms to automate maintenance schedules. It supports managing asset lifecycles, maintenance tickets, real-time notifications, and detailed activity logs. The project ensures high data integrity with hash-linked audit trails and provides administrators with comprehensive analytical dashboards for efficient inventory control.

Certificate

9- 2022 Microsoft Office Specialize Word NIIE's Certificate: B2 English

Skills

Hard Skills:

Languages: ReactJS, HTML, CSS, JavaScript, C#
Frameworks & Libraries: ReactJS, Node.js, Express.js, Tailwind CSS, ASP.NET Core (Web API), ASP.NET MVC, SignalR, Entity Framework Core
Tools: Git, GitHub, Docker, Postman, Vite, Vitest, Docker Compose
Database: MySQL, MongoDB, PostgreSQL
Architecture & Industry: MVC, RESTful API, E-commerce, AI Integration

Soft Skills:

Agile Scrum
Teamwork
